

Coco (Luhan) You

Ithaca, NY | ly458@cornell.edu | 205-787-0334 | linkedin.com/in/cocoyou | github.com/cocoyou123456789-sketch | cocoylh.com

Education

Cornell University

B.S. in Information Science, Environment and Sustainability

Concentration: Data Science | **Minor:** Business | **GPA:** 3.91/4.0

Relevant Coursework: Python Programming, Statistics and Data Science, Linear Algebra, Financial Accounting, Microeconomics, Networks, Product Strategy, AI Law, Ethics & Policy

Activities: BCG Launch Program, Expedition EY Program, Claude Design Club, UX Design Club

Ithaca, NY

Expected May 2027

Technical Skills

Languages: Python, Java, R, JavaScript, HTML/CSS

Data / AI: pandas, NumPy, rule-based NLP, AI modeling, dashboarding, JSON/CSV pipelines, literature extraction

Finance: Financial modeling, valuation, credit research, fixed income, scenario analysis | **Tools:** Excel, GitHub, Microsoft Office, PitchBook, Canva

Experience

China Merchants Securities

Investment Banking - Fixed Income Intern

China

2026 – Present

- Prepared issuer profiles, market comparables, and client-ready materials for fixed income transactions.
- Analyzed credit fundamentals, bond market conditions, and transaction precedents for pitch books.
- Organized offering highlights, risk factors, and market updates to support execution workstreams.

University of Science and Technology of China (USTC) / ARPES Lab

Hefei, China

2026 – Present

AI Modeling Intern

- Build AI modeling workflows for ARPES research linking materials, temperature features, and literature evidence.
- Develop browser-facing model interfaces and structured outputs for experiment records and comparisons.
- Translate research requirements into data schemas for material properties, ARPES notes, figures, and model inputs.

Venture Starters

Remote

Venture Capital Intern

Dec 2025 – Present

- Conduct due diligence on healthtech and biotech startups, translating market analysis into investment memos.
- Evaluate competitive positioning, business model quality, and downside risks for screening decisions.
- Synthesize founder, product, market, and financial findings into concise materials for senior review.

Tianjin Hotworld Technology Co., Ltd.

Tianjin, China / Remote

Sep 2025 – Dec 2025

Business Analytics Intern

- Built Excel models and dashboards across 10+ software firms to evaluate revenue, cash flow, and metrics.
- Conducted market and competitor research to identify growth drivers, customer segments, and bottlenecks.
- Presented quantitative and qualitative findings in structured briefs for leadership and business planning.

Rednote (Xiaohongshu)

Remote

Content Creator (Data & Analytics)

Sep 2023 – Sep 2025

- Analyzed engagement patterns and tested content changes, driving 468% engagement and 287% impression growth.
- Built recurring reporting around impressions, engagement, audience behavior, and conversion signals.
- Converted data insights into repeatable experiments across format, timing, topic, and distribution.

Projects

Lake Shore 336 Temperature Control Dashboard

2026

GitHub: Debye-T3/LakeShore336 | Python, EPICS, serial control, browser dashboard

- Built an ARPES warmup dashboard with live readbacks, PID/heater controls, demo mode, bilingual UI, and CSV logging.
- Implemented EPICS IOC records and serial control for cold-head/sample readings and stepwise warmup.
- Designed safety-aware setpoint limits, ramp rates, heater ranges, communication status, and operator warnings.

ARPES Superconductivity Explorer

2026

GitHub: cocoyou123456789-sketch/data | Python, JavaScript, literature extraction, research data UI

- Created a research data site and extractor for ARPES literature with material search and figure comparison.
- Designed JSON/CSV pipelines for Web of Science, Google Scholar BibTeX, OpenAlex, arXiv, and Crossref.
- Added bilingual workflows for literature import, material comparison, HDF5 notes, and report generation.

Personal Website

2026

HTML/CSS, GitHub Pages, responsive design

cocoylh.com

- Deployed a recruiter-facing portfolio with selected projects, resume, experience, and GitHub links.
- Built responsive sections for project cards, experience timeline, skills, contact links, and resume access.
- Maintained a lightweight GitHub Pages workflow for quick project and resume updates.

Leadership & Research

Cornell Wall Street Club: VP of Education and Mentorship; lead valuation, accounting, and capital markets training for 50+ students. **Cornell**

Current Club: Analyst covering macro indicators and sector-level investment views. **Tianjin Agricultural University:** Co-authored peer-reviewed *Fish Physiology and Biochemistry* research; supported data analysis and manuscript development.
